The Bizhub One i-Series

bizhub ONE i-Series Video

The new bizhub One i-Series doesn't compromise on anything. When it comes to security and ease of use, our devices deliver the best of both

READY FOR THE BEST OF BOTH WORLDS?

Simple + a lot more

- User-friendly experience – enjoy using an updated, intuitive and logical user interface that offers flexible customization options
- Your apps at your fingertips – organize apps on the bizhub One i-Series user interface for rapid access to the functions you use the most
- Cloud ready – take advantage of seamless integration with popular cloud applications directly from the user panel
- Productivity boost – the enhanced intelligent media sensor automatically detects the paper type to maintain an increased productivity
- Higher availability, lower costs – remote and predictive maintenance help maximize device availability and reduce the possibility of issues arising, saving costs and maximizing uptime

Secure + a lot more

- Proven protection – against viruses, malware, cyber-attacks and unauthorized access with tried-and-tested security built in
- Prevent problems before they happen – once a device is secured, it stays secure; use Shield Guard to keep your bizhub fleet aligned with your defined security policy
- Visibly secure – advanced virus protection, with clear notifications and status reporting that let you decide how to process jobs
- Compliant – no concern for data privacy standards with a full portfolio of security services and solutions; meets the stringent GDPR (General Data Protection Regulation) security guidelines

i14

One Convenient System For Ice And Water Dispensing

The i14 features a large capacity ice bin that holds 13.2 lbs and produces 44 lbs of popular tulip-style ice per day. It offers hot, cold, and ambient water options, combined with advanced hygiene features like hands-free sensor technology for touchless dispensing and certified reverse osmosis filtration. This unit also offers in-tank and in-storage bin LED UV to maintain clean water and ice. Built with reliable and dependable components, this solution includes a durable stainless steel cold tank, an advanced leak prevention system, and an eco-friendly energy-saving mode.

Integrated Ice & Water Solution

- Large capacity ice bin holds 13.2 lbs
- Available with hot, cold, and ambient water
- Produces 44 lbs of popular tulip-style ice

Advanced Hygiene Features

- Hands-free sensor technology for touchless dispensing
- Trusted and certified reverse osmosis filtration
- Offers both in-tank and in-storage UV sanitation

Reliable & Dependable Components

- Durable stainless steel cold tank
- Advanced leak prevention system
- Eco-friendly energy saving mode

Cold

Ambient

Hot

Ice

Elegant Design

Characterized by a glass front, touchless operation and an increased dispense height, the i14 stylishly complements the interiors of even the most sophisticated workplaces.

500 D Street, South Charleston WV 25303 • Phone: (304) 744-7440 • www.komaxwv.com

WL50

High-performance water dispenser

The WL50 is equipped with premium filtration and an integrated in-tank LED UV making it ideal for high-traffic environments.

Advanced technology:

High performance filtration Configured with 5-stage reverse osmosis filtration or 4-stage carbon filtration.

In-tank LED UV In-tank LED UV technology helps maintain system cleanliness.

Surface protection technology*Key surfaces are infused with surface protection technology, inhibiting the growth of odor and stain-causing microbes.

Large capacity hot tank Equipped with 1.1 gallon stainless steel hot tank.

Number of users: 50+

Surface protection technology protects surfaces from odor and stain-causing microbes. It does not protect users against bacteria, viruses, germs or other disease causing organisms. This technology is not a substitute for good cleaning practices.

Sediment Filter
Reduces particles such as dirt, silt, rust, and pipe residue.

Pre-Carbon Filter
Reduces chlorine and chemicals.

Reverse Osmosis
Membrane Reduces dissolved solids, pharmaceuticals

Mineral Add-Back Filter
Adds minerals, electrolytes, and enhances alkalinity.

Post-carbon Filter
Final polishing filter ensures great taste.

PostBase® vision Advanced

Stylish. Secure. Connected

PostBase® vision Advanced embodies a modern, award winning design that integrates perfectly into any office environment. Meticulously engineered with users in mind, this mailing system is intuitive and simple to use with a large adjustable touchscreen so that any operator can process mail with ease. The Stack & Go feeder, with the large format feed deck, and adjustable anti-skew rollers set the PostBase® vision Advanced apart for reliability and performance. Featuring top-of-the-line technology, cloud-based analytics, and high-tech digital solutions this postage meter is as functional as it is stylish, and comes in 5 designer colors to choose from.

MyFP Customer Portal

Advanced portal options offer full online control of your mailing system. Including meter operator and cost account management, orders and invoices, support and FP digital products and services.

USPS® IMI Approved

Equipped with the most up-to-date USPS® Intelligent Mail Indicia (IMI) technology. The PostBase® vision is designed to fully meet all USPS® standards and requirements.

SealCheck Sensor

Exclusive to FP's PostBase® line, SealCheck envelope sealers ensure security by validating that each envelope flap passes through the sealer.

FP Parcel Shipping

Ship. Track. Save.

Paired with the PostBase® vision, FP Parcel Shipping is the perfect companion to send packages. FP Parcel Shipping comes equipped with the USPS® shipping rates with the option to add multi-carrier shipping, giving you the power to select the best rate for the day you want your package to arrive.

Saving time and money while sending packages has never been simpler. This online shipping application allows you to easily compare rates and print shipping labels with the tracking barcodes for the carrier and service selected.

FP Parcel Shipping also offers:

- Discounted Commercial Plus® Pricing
- Free insurance on Priority Mail® and Priority Mail Express® (up to \$100 value)
- CASS address correction and validation
- Package tracking dashboard with email notifications
- Add-on multi-carrier rate shopping option

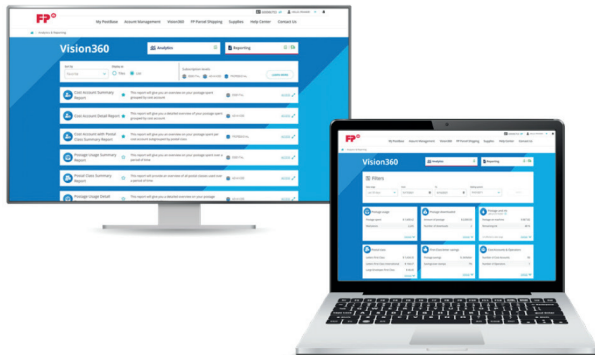

Label Printer
(optional)

External Scale
(optional)

Prints IMpb compliant tracking labels on letter size paper or 4" x 6" thermal shipping labels

Vision360

Postal Analytics and Reporting

Created with exclusive technology, the PostBase® vision offers advanced postal analytics and reporting through Vision360. Accessible through the MyFP Customer Portal, Vision360 provides companies a 360-degree view of postal usage to better monitor, manage, and control postal expenditures. With the Vision360 analytics dashboard, you can get an operational overview of postal expenses, ink and postage on the machine, and postage downloads for better budgeting and planning. Getting the right report you need in the format required is easy. Report types are displayed on-screen as tiles or in a list view that can be sorted by favorites, alphabetical, report type or subscription level.

Reporting Metrics Available:

- Postage Download
- Postal Usage
- Cost Accounts
- Postal Class (Advanced & Professional)
- Meter Operators (Advanced & Professional)

New Product Alert

EV Charging Station Systems Now Available From KOMAX

Charging Stations For Home, Work Fleets & Commercial Point of Sale

Conveniently Charge At Home

Charge your electric vehicle safely and in the privacy of your home. With innovative features, maximum power delivery, greater convenience, and the advanced technology ensures your vehicle is ready to go!

Road tripping

Make your business or property a popular stop along highway and interstate routes, a Direct-Current Fast Charger (DCFC) station provides a valuable resource while also encouraging these long-distance drivers to visit you as opposed to other stops.

Fleets

If you own a fleet of electric vehicles that are used throughout the day for business purposes, having a fast-charge option may be effective in keeping your fleet fully charged.

Car sharing

Short-term (often hourly) car rentals represent a growing business model in metro areas throughout the U.S. Direct-Current Fast Charger (DCFC) stations can quickly charge these vehicles between rental sessions.

Ultimately

EV charging is really about meeting the range needs of EV drivers in a way that aligns with their habits while remaining cost-effective for the property.

Multifamily EV Charging Solutions

Widespread EV adoption may still be in its infancy, but drivers who have already made the transition will seek quality and reliable charging stations as a key amenity before deciding where to live. Even those with less interest in electric vehicles or still pondering the switch will recognize the commitment to tenants that EV charging stations represent, similar to multifamily properties that offer washers and dryers, pools, or gym equipment.

We want to help you provide a simple, turnkey solution that drives differentiation and revenue for partners that want to be involved in the EV revolution.

- Offer a premium amenity to residents and their visitors
- Attract the EV driver demographic
- Create an additional revenue stream through charging revenue or offer to residents complimentary
- Add an eco-friendly component to the overall perception of your building
- Offering charging stations shows that your properties are on the leading edge of tech
- Help improve the air quality and reduce CO2 emissions in your neighborhood
- Utilize unique marketing opportunities with on-screen ads and pedestal wraps
- Stand apart from competing properties in your community

Kodak S2060w/S2080w Scanners

Fast. Accurate. Connected.

Connected sheet-fed document scanners that never compromise on image quality or performance.

The connected sheet-fed **Kodak S2060w/S2080w** Scanners create a productive shared network scanning experience packed with advanced technology to deliver high-quality images directly to the cloud or line of business applications.

Flexible Connections

Kodak S2000w Series Scanners are designed to sit anywhere within your organization, with built-in 802.11 b/g/n wireless and enterprise-level security or wired Gigabit Ethernet for direct on-premises network connectivity.

Your Images, Only Better!

The best image possible

Brighter, sharper images that eliminate shadows caused by folds or wrinkles, thanks to our unique **Dual Light Illumination** technology.

A Perfect Page every time

No blur, no spots, just a clean, well-cropped image ready for your eyes. Some say, "even better than the original."

Exceptional accuracy

Easily create searchable documents where every word can be found with up to 20% higher optical character recognition (OCR)* accuracy versus competitive devices.

Unique Document Separation and Protection

Active separation technology

The scanner's unique **Active Feeding System** (AFS) uses reversing rollers that separate each page and lever arms to jog and straighten the paper before entering the scanner.

Safe document technology

Intelligent **ultrasonic sensors** monitor each piece of paper as it passes through the feeding mechanism, ensuring no original documents are missed.

Intelligent document protection

The scanner has a sensitive microphone that prevents damage to documents. When it hears paper crumpling, the scanner immediately stops to minimize damage.

Smooth exit technology

Our **Controlled Stacking** technology adjusts paper speed and safely guides documents into the exit tray, ensuring neat and orderly document stacking every time.

WorkForce ES-865 Color Duplex Document Scanner

- Product Highlights
- Scans up to 65 ppm/130 ipm¹; 2-sided, single-pass

Cloud PBX With Webex

One Secure Place to Call, Meet, and Message

Cloud PBX with Webex is a fresh, all-in-one collaboration solution. Customers can choose from flexible packages that range from basic softphone to premium meetings, allowing for up to 1000 participants in a single meeting. Best of all, you can continue to rely on us, to manage and support your entire collaboration experience.

Visual voicemail

Forward Phone Calls to Voicemail

Call-forwarding, single number reach, DND

Personal preference Management

Audio and video calls or meeting

Messaging, Integrations & Team Tools

Calling options

Desk-phone & room device pairing and control

Hold / resume, transfer, merge / conference

- Call recording with AI
- SMS integration with Clerk Chat
- Cloud fax & traditional fax solutions
- 24/7 US - Based Support Desk
- Entire collaboration experience is managed and supported
- Flexible packages from basic phones to premium meetings

Clerk Chat

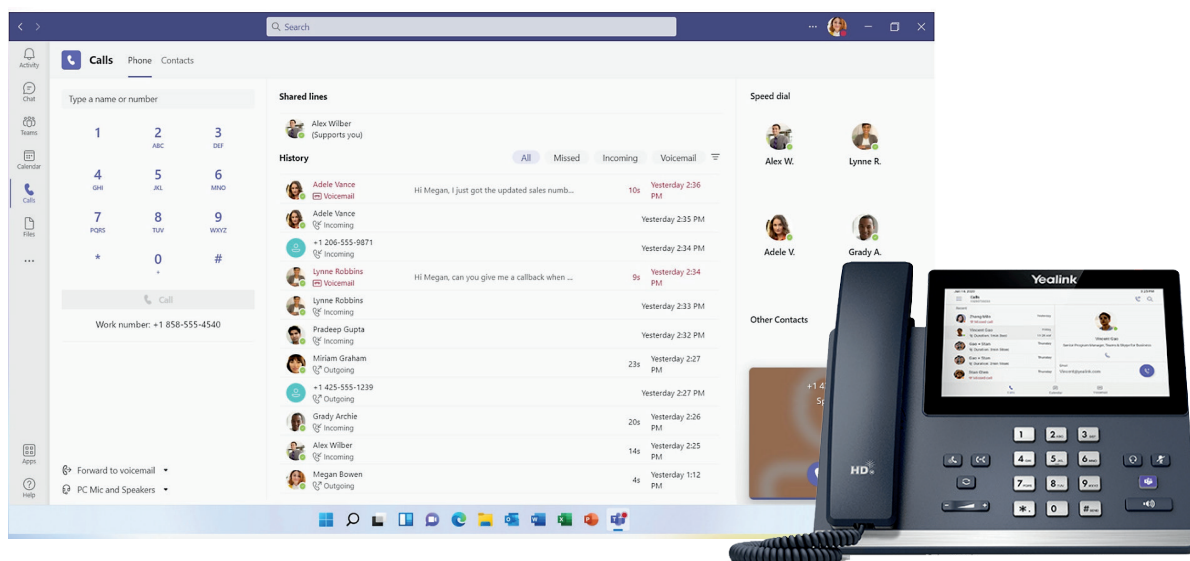

- Group Messaging: Reach multiple customers instantly, perfect for small business campaigns
- Automated Marketing: Streamline text message marketing with automation, saving time and enhancing efficiency
- AI SMS Assistant: Boost efficiency with our AI-powered SMS Assistant, handling customer inquiries swiftly and accurately

Calling for Microsoft Teams

Unlock capabilities with M365 and Microsoft Teams for a unified communications solution.

Seamlessly integrate voice calling into your workflow with Microsoft Teams. With Teams Calling, you can make and receive business calls from anywhere, using your computer, mobile device, or desk phone. Enjoy crystal-clear audio, advanced call routing, voicemail, and integration with your existing Microsoft 365 environment. Stay connected and collaborate effortlessly—all in one platform.

- Native Teams call routing
- Teams voice administration
- Call recording with AI
- Cloud fax & traditional fax solutions
- SMS integration
- 24/7 US - Based Support Desk

Why Switch to a KOMAX VoIP Phone Solution?

- Cost Savings - Likely to reduce monthly phone bill
- Flexibility - Make and receive calls from anywhere with an internet connection
- Advanced Features - Enjoy voicemail-to-email, call forwarding, auto-attendants, and more
- Scalability - Easily add users as your business grows

In this video, we explain what Unified Communications are, and how they form a more efficient and affordable flow of communications between agents and consumers.

Let us see if we can save you money...It's absolutely FREE!

MPS-Managed Print Services

A Service Contract and BEYOND! *All Inclusive Program Covers Your Printers!*

Reduced Costs

Reduce costs by identifying your total cost of ownership

Optimized Efficiency

Realize the benefits of automated processes.

Increased Security

Security solutions safeguard the privacy and confidentiality.

Improve Sustainability

See your true environmental impact of your business.

Managed Print Services Benefits

- FREE Installation and 30 day monitoring
- Automatic toner fulfillment
- We deliver all of your consumable needs
- No need to order supplies or store inventory
- Eliminates ordering errors
- Reduces your administrative expenses
- Saves you personnel time
- Simple invoicing
- Set auto service alerts
- Eliminates burden of technical services issues
- ProTech* certified technicians support
- We monitor and assess your printer fleet 24/7
- Service call cost included
- Proactive maintenance

Printer Fleet Monitoring

Our Fleet Monitoring Service Includes:

- Identifying how many devices you own and whether each is performing optimally
- Tracking how much volume is being generated per device, by department and by user
- Determining how much you're spending per device and its cost-per-print (CPP)
- Monitoring print jobs to allocate costs and identify new ways to improve output—including digitization and automating your print workflow
- Auto toner delivery
- Advance account management
- Periodic account reviews focusing on improving workflow and further reducing costs

Ask for a *FREE* 30 day assessment & proposal!

*The Pro-Tech Service Award recognizes those Konica Minolta dealers who have demonstrated an exceptional commitment to customer support and satisfaction.

Managed Print Services Q&A

Focus on your business and let us manage your printing and scanning infrastructure

What are managed print services (MPS)?

A managed print service (MPS), like Optimized Print Services (OPS) from Konica Minolta, allows you to offload the maintenance and management of your printing and scanning infrastructure to a third-party provider. The provider may take over management of your existing devices (even a mixed fleet) or may partially or completely replace your devices.

What does a managed print service do?

Your MPS should include features like:

- Continuous optimization of your printing and scanning infrastructure to ensure it keeps pace with business needs
- Print management software for user authentication, usage monitoring, cost management and more
- Remote support for proactive device monitoring and remote fixing of issues wherever possible

What devices can be included in a managed print service?

Your MPS provider should offer a range of devices to suit the needs of your organization and your users. At Konica Minolta, for example, we offer a range of devices that:

- Can print, scan, copy and even fax
- Produce black and white or color output on a wide range of paper sizes
- Enable duplex (double-sided) printing
- Provide finishing options like stapling and booklet-making
- Are safe and easy for anyone to use
- Offer enhanced security features to safeguard your data
- Are designed for a reduced environmental impact

Our Fleet Monitoring Service Includes:

- Identifying how many devices you own and whether each is performing optimally
- Tracking how much volume is being generated per device, by department and by user
- Determining how much you're spending per device and its cost-per-print (CPP)
- Monitoring print jobs to allocate costs and identify new ways to improve output—including digitization and automating your print workflow

Our Advanced Services With These Added Benefits:

- Auto toner delivery
- Advance account management
- Periodic account reviews focusing on improving workflow and further reducing costs

Mint Mailing Systems

Mint 110 Mailing System

- USPS-based Intelligent Mail Indicia
- Speed up to 45 letters/minute
- 5 lb integrated weighing platform
- Envelope thickness up to 3/8"
- Automatic rate change download

Mint 210 Series Mailing System

- USPS-based Intelligent Mail Indicia
- Automatic/semi-automatic feeding
- Speed up to 75/110 letters per minute
- 5 lb weighing platform
- Automatic rate change download

Mint 410 Series Mailing System

- Up to 300 letters per minute
- Color touchscreen
- Ultra high capacity ink tank
- Dual pump jet spray sealing system
- 15 preset jobs

Digital Print & Finishing

- High-speed CMYK printing on a variety of media
- Stationary print head with 70,400 inkjet nozzles
- Speeds of up to 7,500 envelopes/hour
- Full-bleed printing up to 1600 x 1600 dpi
- High-capacity ink tanks

- Compact, on-demand label printer
- Continuous roll-to-roll or print-and-cut operation
- Memjet print head features 70,400 inkjet nozzles
- Intuitive 7" color touchscreen Local Dealer:
- Full-bleed CMYK printing up to 1600 x 1600 dpi

- Compact, on-demand label printer
- Continuous roll-to-roll or print-and-cut operation
- Memjet print head features 70,400 inkjet nozzles
- Intuitive 7" color touchscreen Local Dealer:
- Full-bleed CMYK printing up to 1600 x 1600 dpi

Inserters

6308 Series

FOR FOLDING & INSERTING

- Four configurations available
- High-capacity vertical output stacker
- 7" color touchscreen control panel
- Up to 50 programmable jobs Local Dealer:
- Top-loading envelope hopper

7104 Series

HIGH VOLUME MODULAR INSERTER SOLUTION

- Modular design
- Up to 8 modules with up to 17 feeders
- 22" color touchscreen
- Processes up to 4,500 envelopes/hour
- Unlimited programmable jobs

FD 6104

FOR FOLDING & INSERTING

- 2 1/2 stations for inserting sheets plus BRES
- Produces up to 1,350 filled envelopes/hour
- Color touchscreen control panel
- Up to 15 programmable jobs
- Top loading feeders

Pressure Sealers

AutoSeal® FD 1202

LOW-VOLUME PRESSURE SEALER

- Compact desktop design
- Drop-in feed system for dependability
- 5 pre-marked popular folds
- Processes up to 38 forms per minute
- Handles forms up to 14" long

AutoSeal® FD 1506

MID-VOLUME PRESSURE SEALER

- Color touchscreen control panel
- Drop-in feed system
- Six-digit resettable counter
- Processes up to 100 forms per minute
- Handles forms up to 14" long

AutoSeal® FD 2096

PRODUCTION PRESSURE SEALER

- Bottom-suction air feed system
- Processes up to 30,000 forms per hour
- Handles forms up to 17" long
- Heavy duty construction Local Dealer:
- Adjustable 17" ball transport deck

Digital Printers and Addressing

- AutoStart/AutoStop
- Up to 17 sheets at once
- CDs, credit cards, staples
- Two dedicated infeeds
- Casters for portability

OnSite FD 8502CC Office

- AutoStart/AutoStop
- LED Control Panel
- Cross-Cut
- 16" feed opening
- All-metal cabinet

FD 8300HS High Security

- NSA Level 6 High Security
- AutoStart/Stop/Reverse
- LED Control Panel
- Shred size: 1/32" x 3/16"
- All-metal cabinet

Digital Press

HAVE IT ALL WITH ONE PRESS.

Rethink The Future Of Digital Print

Imagine having just a single press that is good for everything: 2-sided banner printing, professional inline finishing, highest productivity, real-time automated quality adjustments, excellent print quality, and so much more.

STATE-OF-THE-ART PRINT SERVERS RETHINK YOUR USER EXPERIENCE

THE IC-609

Konica Minolta Controller

The Konica Minolta IC-609 print controller brings powerful workflow benefits – including 2,400 dpi printing at full rated engine speed, high-speed RIP processing, enhanced accuracy in color reproduction, color management functions, and full compatibility with print engine on-board job control and editing functions.

THE IC-317

Fiery Image Controller

Providing advanced job management and workflow automation, the Fiery® IC-317 reduces labor costs, cuts turnaround times, and minimizes errors as well as waste. The instant visual preview and advanced make ready capabilities streamline job layouts. Support of industry-leading variable data printing (VDP) formats facilitates the profitable production of personalized short-run jobs.

THE IC-419

Embedded Fiery Image Controller

As the embedded Fiery® controller alternative, the IC-419 offers a combination of affordability, versatile color management, and PCL support plus a wide range of security features. It helps improve the ease of use of AccurioPress systems, and simplifies workflows so that our digital color presses deliver truly professional print results, making any configuration an ideal business solution for your company's printing facilities.

Intelligent Quality Optimizer IQ-501

Takes color consistency and registration accuracy to the next level

With highly automated image registration and color control, a closed-loop system that constantly monitors and adjusts printed output, and automated color calibration and profiling, IQ-501 Intelligent Quality Optimizer delivers streamlined operator time, reduced print waste, and industry-leading productivity!

AUTOMATED COLOR AND REGISTRATION ADJUSTMENT BEFORE THE FIRST SHEET IS PRINTED

What used to be manual processes to control density, tone, color, and registration values have become as simple as the push of a button with IQ-501 Intelligent Quality Optimizer, reducing operator time and wasted output.

EXCELLENT PRINT QUALITY FROM EVEN YOUR NEWEST PRESS OPERATORS

IQ-501 Intelligent Quality Optimizer ensures that even your less experienced press operators will be able to produce precisely registered, calibrated, and profiled color prints, on the first run and on every run. IQ-501 is your key to minimizing labor costs without compromising the print quality your customers demand.

REAL-TIME COLOR AND REGISTRATION ADJUSTMENT

Continuous monitoring and closed-loop, automated process controls ensure that every print is checked and on-the-fly adjustments are made to ensure only the highest-quality color and registration results for you and your customers.

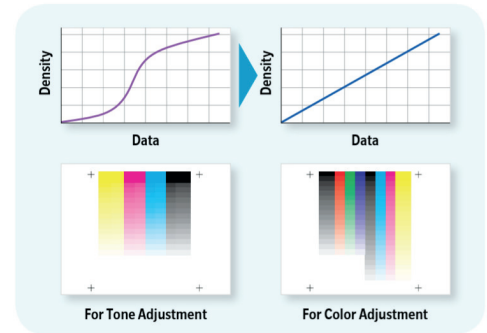

ACCURIOPRO CLOUD EYE FLEET CONNECTIVITY

IQ-501 Intelligent Quality Optimizer works seamlessly with AccurioPro Cloud Eye, enabling consistent registration, calibration and profiling among a fleet of IQ-501 equipped presses.

COLOR DENSITY CONTROL

Using values stored in the stock library and operator screen settings for the piece, IQ-501's automated density and tone adjustments ensure absolute color fidelity for both CMYK process colors as well as RGB+3C gray arrays for beautiful, color-perfect output.

DENSITY BALANCE AUTO ADJUSTMENT

Any uneven density values are automatically detected and corrected.

FRONT-TO-BACK AUTOMATED REGISTRATION

Specify the media and tray, and the front-to-back registration will be automatically adjusted for the job, page by page, to control both vertical/ horizontal orientation as well as image skew. Auto-adjustment intervals may also be set to occur at user defined intervals.

About Us

History

KOMAX Business Systems is a West Virginia owned and operated LLC founded in 1999. We service Southern West Virginia, Eastern Kentucky, Southern Ohio and Western Virginia.

- **Locally owned and operated.** That means you talk to local people every time you call and get an immediate response without going through automated phone lines and “passing the buck”.
- **Get local, fast service from highly trained technicians.**
- **Our full time Konica Minolta Bizhub trainer, Patti, can answer your questions about how to operate the machine.**
- **Any of our over 40 employees are here to help you!**

Products

KOMAX partners with only reputable, top of the line manufacturers for all products/services. This includes, but is not limited to, Konica Minolta, KIP, Canon, Mutoh, FP Postage, Destroy-It, Formax, Kodak Alaris, Epson, Promethean, NewLine, ACDI and many more. We can provide the ideal combination of office equipment, solutions software and IT services to make your business more productive.

Our Team

KOMAX Business Systems offers one of the most experienced and successful office equipment teams in the industry. Perhaps it is because we approach our mission as a consultative practice rather than to merely sell office equipment. We understand that the proper office equipment is vital to your business and we are committed to providing total solutions.

Mission Statement

KOMAX Business Systems is dedicated to always exceeding the expectations of our customers. We will always be reliable, flexible, and solution-oriented in addressing the needs of our customers. Respect and professionalism will always be paramount in relations with our customers, employees, vendors, and our business partners.
