Vision360
Postal Analytics & Reporting

PostBase® Vision360
Monitor. Manage. Control.

Vision360 is accessed conveniently online, through the MyFP Customer Portal. Vision360 provides companies a 360 degree view of postal usage to better monitor, manage and control postal expenditures. Users can log-in and view important information about their mailing system including available postage and ink, gain insight to postal expenditures and generate chargeback and management reports with ease. The simple, yet powerful web based interface displays information in two parts, a graphical analytics dashboard and robust report generator with a full suite of reports with filters.
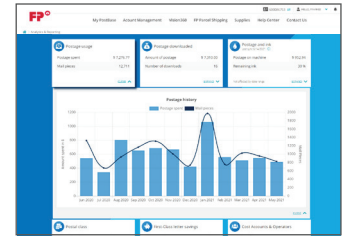

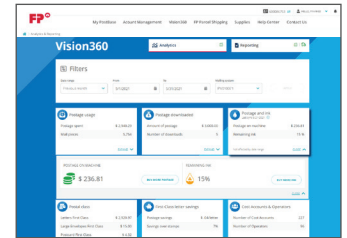

Vision360 Analytics Dashboard

Selectable Date Ranges
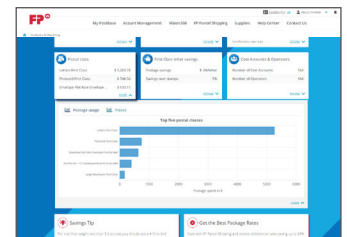

Six Postal and System Informational Tiles

Expandable Tiles Provide Graphical Summary Views

Postage Download

Postage and Ink

Postal Class

Web Interface

Conveniently access all of your reporting information online with a simple, clean graphical interface.

Operational Overview

View postal expenses, ink and postage on machine, cost accounts and meter operators.
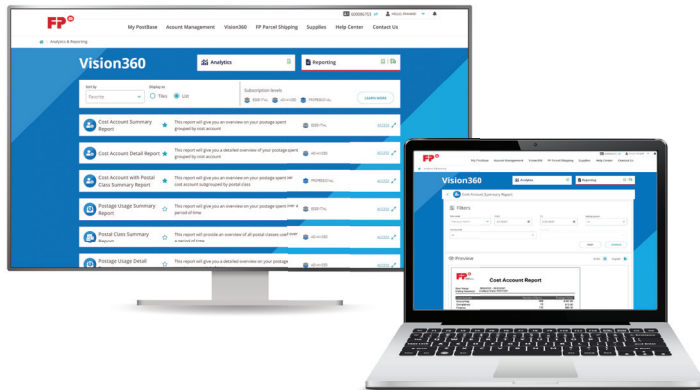

Expense Management

Get a historical view of postal expenses and postage downloads for better budgeting and planning.

Vision360 Reporting
Select. Filter. Generate.

With Vision360, getting the right report you need in the format required is easy. Report types are displayed on-screen as tiles or in a list view that can be sorted by favorites, alphabetical, report type or subscription level. Once a report is selected, a set of filters allows report customization. The report is previewed and can be printed or exported directly.

Reporting Metrics

- Postage Download
- Postal Usage
- Postal Class
- Cost Accounts
- Meter Operators

Upgrades Available:
Advanced subscription offers additional reports, and Professional allows the user to combine metrics into one report.

PostBase® Vision
Stylish. Secure. Connected.

Created with exclusive technology, the PostBase® Vision offers increased user control through full online management on your mailing system. Advanced portal options include account management, support, FP Parcel Shipping, analytics, and access to digital products & services. The PostBase® Vision, equipped with Vision360 analytics, is a modern mailroom essential.
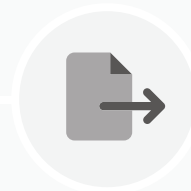

Account Chargeback

Chargeback by cost account or meter operator. Up to 250 accounts available.

Robust Set of Reports

Full suite of reports with filters for time period, mailing system, cost account, grouping and page breaks.

Export PDF, Excel and .csv

Reports can be quickly and easily exported using the most commonly used formats.
